The Executive Protection Package provides you with the very best value for your dollar. Given the importance of protecting your intellectual property, particularly with increasing infringement of trademarks on the Internet, this package provides coverage which is normally much more expensive.

The Executive Protection Package also provides you with exceptional flexibility should a search find a potential conflict for your trademark: You will have the option of receiving a refund of \$1100.00 OR a complimentary second comprehensive search. Furthermore, this package includes up to 3 substantive responses (3 letters) on issues or objections raised in Examiner's Reports. Regardless of the time required, whether it takes 5 hours or 25 hours to research, strategize and draft the appropriate response(s), you will not be billed for any additional legal fees. Given the high cost of legal services, this package can potentially save you hundreds to thousands of dollars.

This package also includes 1 year of trademark monitoring services, which normally cost upwards of \$500/year.

You will also have the opportunity to discuss your file with a trademark lawyer, and we will respond to any non-substantive requests for information on your behalf.

Please note, in the rare case that more than 3 substantive responses (3 letters) are required for your trademark application, we will ask for your instructions on how you would like to move forward. Should you wish to proceed with the application at this stage, we would charge you our usual hourly rates for legal service.
